Tandem Paragliding – Like an Eagle

experience what it's like to be a bird
soundlessly floating through the sky
to be one with the elements
take just one step too leave the ground
then soar into the sky and
climb the thermal currents to fly with the eagles
enjoy the view high above the land
leave your troubles totally behind you
feel the wind in your face
gain unforgettable impressions
enjoy the touch down beer with a smile on your face
fall to sleep grateful
with exactly the same smile
knowing you've just experienced one of the greatest thrills
